SUBJECT INDEX

Abrasion Resistance
Wear Resistant Industrial Floors of Portland-Cement Concrete, 82

Acceleration (Physics)
Fluid Force Analysis and Accelerating Sphere Tests, 363

Accidents
The Driver and the Road, 981

Accuracy
Effect of Period of Record on Flood Prediction, 888

Acquisition
Using Experimental Models to Guide Data Gathering, 811

Activated Carbon
Batch Adsorption Kinetics in Sewage--Activated Carbon, 1015

Activated Sludge
Activated Sludge ATP: Effects of Environmental Stress, 902

Activated Sludge Process
Kinetic Analysis of Data from Biological Systems, 1010
New Wastewater Treatment Processes: EPA Encourages Adoption, 547
Nitrogen Transformation in Activated Sludge Treatment, 697
Shearing Effects On Settling of Activated Sludge, 890
Theoretical Analysis of Activated Sludge Dynamics, 554
Unified Basis for Biological Treatment Design and Operation, 48

Adenosine Phosphates
Activated Sludge ATP: Effects of Environmental Stress, 902

Adsorption
Adsorption of Pesticides by Clay Minerals, 493
Downflow Bubble Contact Aeration, 760

Aeration
Aerated Lagoons Treat Minnesota Town's Wastes, 1
Aerator Performance in Natural Streams, 211
Characteristics of Self-Aerated Flows, 12
Flow of Air Through Soils, 422
Inception and Entrainment in Self-Aerated Flows, 117
Instream Aerators for Polluted Rivers, 353
Surface Aeration Cuts Costs of Waste-Water Treatment Plant, 510

Aeration Tanks
Japan Develops Water Polluton Control Technology, 676

Aerators
Surface Aeration Cuts Costs of Waste-Water Treatment Plant, 510

Aerial Photographs
Instant Relief With New Stereo Image Alternator, 115

Aerial Photography
Channel Rectification Engineering Survey Program, 332
Coastal Erosion in North Carolina, 108
Monitoring Water Pollution by Remote Sensing, 953
Orthophotomapping for Prudhoe Bay Development, 1008
Photogrammetric Surveying in Highway Programs, 946

Aerial Surveys
Depth to Ground-Water Table by Remote Sensing, 1013
Photogrammetric Surveying in Highway Programs, 946

Aerodynamics
Response of Triangular Prisms in Turbulent Wind, 889

Aerodynamic Stability
Aeroelastic Stability of Unstiffened Suspension Bridges, 1037
Airfoil and Bridge Deck Flutter Derivatives, 963

Aerospace Engineering
Manned Space Station: Civil Engineer's Role, 656

Aero-Space Transport
Airfield Pavement Systems, 1004
Density Altitude Variations and Runway Length, 977
Improving Airport Gate Usage with Critical Path, 326
Rigid Pavement Stresses Under Aircraft Loading, 1012
STOL Passenger Demand in Underdeveloped Areas, 807
V/STOL Concepts for Short Haul Air Transport, 1000

Agglomeration
Shearing Effects On Settling of Activated Sludge, 890

Agricultural Engineering
Furrow Irrigation with Decreasing Inflow Rate, 208
General Hydrologic System Model, 704
Model For Farm Irrigation in Humid Areas, 687
Steady Drainage of Layered Soils: II, Nomographs, 883
Steady Drainage of Layered Soils: I, Theory, 880

Agriculture
Environmental Protection-TVA Experience, 431
Estimation and Use of Water Production Functions in Crops, 864

Agronomy
Estimation and Use of Water Production Functions in Crops, 864

Air Bubbles
Downflow Bubble Contact Aeration, 760
Self-Aerated Flow Characteristics in Wall Region, 748

Air Cooling
Power Plant Cycles for Dry Cooling Towers, 938

Aircraft
Determination of Wheel Trajectories, 843
Improving Airport Gate Usage with Critical Path, 326
Rigid Pavement Stresses Under Aircraft Loading, 1012
Structural Response to Sonic Booms, 668

Air Entrainment
Characteristics of Self-Aerated Flows, 12
Self-Aerated Flow Characteristics in Wall Region, 748

Airfoils
Airfoil and Bridge Deck Flutter Derivatives, 963

Air Navigation
Television Display of Topographic Maps, 930

Air Pollution
New Municipal Incinerator Defeats Pollution/Corrosion Problems, 782
USBR Specifications Focus on Environment, 454
What Industry is Doing About Pollution Control, 556
Will Air Pollution Regulations Change Commuting Patterns?, 589

Air Pollution Control Equipment
New Municipal Incinerator Defeats Pollution/Corrosion Problems, 782

Airports
Airfield Pavement Systems, 1004
Atlanta's Instant Runway, 813
Determination of Wheel Trajectories, 843
Improving Airport Gate Usage with Critical Path, 326
Rigid Pavement Stresses Under Aircraft Loading, 1012
Tampa International Airport: Model for the Jumbo-Jet Age, 632

Air Transportation
Determination of Wheel Trajectories, 843
Improving Airport Gate Usage with Critical Path, 326
Transportation Research Needs in Civil Engineering, 830
V/STOL Concepts for Short Haul Air Transport, 1000

Air-Water Interfaces
Wave-Influence on Wind Velocity Profile, 845

Alaska
Orthophotomapping for Prudhoe Bay Development, 1008

Algae
Aerial Color Analyses of Water Quality, 1033
Evaluation of Some Stabilization Ponds in India, 605

Algorithms
Routing for Public Service Vehicles, 945

Alignment
Effect on Waterway Depth and Alignments, 88
Seasonal Deformation of 2-Mile Straight Line, 962

Alluvial Channels
Flume Experiments on Alternate Bar Formation, 871
Hydrodynamic Effects of Seepage on Bed Particles, 675
Indeterminate Hydraulics of Alluvial Channels, 532

Alluvial Streams
Flow Over Triangular Elements Simulating Dunes, 979

Ammonia
Simulation of Ammonia Stripping from Wastewater, 974

Anaerobic Digestion
Unified Basis for Biological Treatment Design and Operation, 48

Anaerobic Processes
Evaluation of Some Stabilization Ponds in India, 605

Analog Computers
Theoretical Analysis of Activated Sludge Dynamics, 554

Analogs
Analog Analysis of Water Distribution Networks, 343

Analysis
Torsional Stiffness of Embedded Footings, 987

Anchorages
Newport Bridge Superstructure, 961

Anchors
Anchor Zone Stresses in Prestressed and Concrete Beams, 391
Tie-Backs in Clay to Support Sheeted Excavation, 5

Anchors (Structures)
Sloped Sheeting, 116

Anemometers
Anemometer Height in Froude Scaling of Wind Stress, 874

Animal Ecology
The Cross-Florida Barge Canal: A Lesson in Ecology, 275

Anisotropy
Bearing Capacity of Anisotropic Cohesive Soil, 678
Strength of Anisotropically Consolidated Compacted Clay, 221
Thermal Stresses in Multilayer Anisotropic Shells, 289

Antennas
Computation of Cutting Length of Guys, 958
New Microwave Tower Design Reduces Drag, 199
Performance of Foundation for Altair Radar, 268
World's Largest Log-Periodic Antenna, 809

Apprenticeship
Minority Training Programs Lurch Ahead, 567

Aquatic Biology
Dams and Ecology: Can They be Made Compatible?, 577

Aquatic Plants
Biological Control of Aquatic Weeds, 996
Public Irrigation Systems In Puerto Rico, 307

Aqueducts
Operation and Maintenance of Colorado Aqueduct, 392

Aquifer Characteristics
Exotic Uses of Aquifers, 956

Aquifers
Artificial Ground-Water Recharge by Means of Wells in Israel, 960
Exotic Uses of Aquifers, 956
Ground Water Management-A Progress Report, 318
High Plains Irrigation and Texas Water Plan, 875
Hydrology and Geology of Honolulu Aquifer, 626
Mathematical Model of Leaky Aquifer, 555
Numerical Analysis of Free Surface Seepage Problems, 928
Rational Design of Wall Screens, 942
Similitude Criteria for Flow from Unconfined Aquifers, 1034
Unsteady Drawdown in Well Groups, 1031
Unsteady Free Surface Ground Water Seepage, 942
Vertical Recharge of Unconfined Aquifer, 744

Arches
Complete Adjustment Method for Analyzing Arch Dams, 132
Dynamic Buckling of Shallow Arches, 997
Effect of Weight on Large Deflections of Arches, 978
Experimental Study of Lateral Buckling of Arches, 874
In-Plane Bending and Buckling of Arches, 623
Lateral Buckling of Parabolic Arches with Tilting Loads, 652
Natural Frequencies of Circular Arches, 1028
Snap-Buckling of Shallow Prestressed Arches, 55
Stability Criteria for Shallow Arches, 1005

Architects
Engineering-Architecture Interprofessional Practice, 257

Architecture
A Game Plan for Interprofessional Collaboration in Engineering and Architecture, 607
Sydney Opera House, 835

Arctic Regions
Arctic Hangar for Minus 60 Deg F, 365

Arizona
Use of Runoff Forecasting in Reservoir Operations, 104

Artificial Intelligence
Artificial Intelligence Continuum Mechanics, 859

Artificial Recharge
Artificial Recharge in Water Resources Management, 1036

Asbestos Cement
World's Largest Log-Periodic Antenna, 809

ASCE (Activities)
Breaking New Ground, 824

ASCE (Aims and Activities)
ASCE and Social Issues, 354

ASCE (Board of Direction)
Unfinished Business, 224

ASCE (Code of Ethics)
Article Three and the Department of Justice, 542

ASCE (Committees)
Guidelines for Employer-Engineer Relationships, 467
New Books On Structural Analysis, 740

ASCE (Education)
Breaking New Ground, 824

ASCE (Employment Conditions)
Guidelines for Employer-Engineer Relationships, 467

ASCE (Ethics)
State of the Society, 1042

ASCE (Local Sections)
Blueprint for the New ASCE Year, 27
Construction Course for Junior High Schools, 328
Four Freeway Fallacies, San Francisco Section, ASCE Highway Technical Division Task Force, 250
Minority Training Programs Lurch Ahead, 567
Unfinished Business, 224

ASCE (Policy)
The Alternative to Unionism, 91
ASCE and Social Issues, 354
ASCE's New President Outlines a Suggested Course, 759

ASCE (Presidents)
ASCE's New President Outlines a Suggested Course, 759
Blueprint for the New ASCE Year, 27
State of the Society, 1042

ASCE (Professional Activities)
ASCE and Social Issues, 354

ASCE (Professional Practice)
Licensure of Planners and Its Effect on Civil Engineers, 992

ASCE (Public Relations)
The Civil Engineer: Quiet Man or Spokesman?, 815

ASCE (Registration of Engineers)
Licensure of Planners and Its Effect on Civil Engineers, 992
Should Registration Involve Politics?, 389

ASCE (Student Chapters)
Students Revitalize On-Campus Lake, 400

Asphalts
Pavement Design and Staging for Mayan Roads, 985

Astronomy
Reliability of Refraction in Polar Astronavigation, 1026

Atmospheric Density
Density Altitude Variations and Runway Length, 977

Atmospheric Pressure
Density Altitude Variations and Runway Length, 977

Attenuation
Wave Attenuation by Fluid Filled Bags, 189

Attrition (Personnel)
Management System Saves Highway Maintenance Dollars, 501

Australia
Sydney Opera House, 835

Automation
Automated Design of Frame Structures, 294
Automated Optimum Design from Discrete Components, 863
Automation For Small Irrigation Projects, 522
Experiences with Interactive Computing System, 356
Illinois Central Suburban Automated Revenue Collection System, 105
Procedure for Automating Aircraft Wing Structural Design, 281
Technique for Interactive Computer Graphics in Design, 495
Transportation R&D By Private Enterprise, 844

Automobiles
Four Freeway Fallacies, San Francisco Section, ASCE Highway Technical Division Task Force, 250
Mini Automobile-shredding Plant for Western Michigan, 292
Optimizing Traffic Flow on Existing Street Networks, 364
Salvaging Obsolete Autos: Systems Approach to Materials Recycling, 285
Will Air Pollution Regulations Change Commuting Patterns?, 589

Axial Load
Axial Load Design for Concrete Filled Steel Tubes, 179

Azimuth
Geodetic Computations by Electronic Computer, 319

Backfills
Structures In Soil Under High Loads, 416

Backwater
Computer Determination of Flow Through Bridges, 76
Flow Analysis of Large Triangular Weir, 470

Backwater Profiles
Nonuniform Flow in Flat Rectangular Channels, 761

Bacteria
Aerobic and Anaerobic Landfill Stabilization Process, 872
Control of Bacterial Growths in Rapid Sand Filters, 537
Destruction of Bacteria and Viruses in Seawater, 1002
Water and Health-Are We Concerned Enough?, 464

Barges
The Cross-Florida Barge Canal: A Lesson in Ecology, 275
A Reel-Type Pipelaying Barge, 617

Barriers
Concrete Median Barrier Safely Redirects Impacting Vehicles, 642
Designing Fail-Safe Structures of Highway Safety, 383
Wave Attenuation by Fluid Filled Bags, 189

Bars
Upper Bounds in Complementary Energy Method, 1022

Bart
BART Demonstration Program, 1021

Beam Columns
Behavior of Continuous Crane Rails, 586
Concrete Column Design by AASHO Specifications, 591
Free Vibration of Stochastic Beam-Column, 758
Hollow Tubular Beam-Columns in Biaxial Bending, 438
Nonlinear Formulations of Beam-Column Effects, 901
Reinforced Concrete Beam-Column Connection, 793
Three-Dimensional Inelastic Subassemblage Design, 609

Beams (Structural)
Optimum Beam Layout for Large Areas, 1006
Plastic Analysis of Transversely Loaded Frames, 999
Simulated Seismic Loading of Spandrel Beams, 767

Beams (Supports)
Anchor Zone Stresses in Prestressed and Concrete Beams, 391
Behavior of Fiber Glass Reinforced Concrete Beams, 1011
Buckling of Columns with Random Initial Displacements, 600
Column Instability Under Weight and Follower Loads, 695
Coupling Beams of Reinforced Concrete Shear Walls, 395
Creep Deflection of Reinforced Concrete Beams, 265
Design of Laterally Unsupported Timber Beams, 536
Effects of Creep and Shrinkage on Prestressed Concrete Columns, 197
Elastic Lateral Buckling of Stepped I-Beams, 1038
Estimating Beam Size, 815
Fatigue Strength of Rolled and Welded Steel, 986
Fatigue Tests of Beams with Rectangular Web Holes, 377
Fatigue Tests of Prestressed Concrete I-Beams, 471
Flexural Members with Confined Concrete, 990
Further Studies of Inelastic Beam-Column Problem, 380
Higher Mode Buckling of Bimetallic Beam, 725
Hollow Tubular Beam-Columns in Biaxial Bending, 438
Inelastic Flexural-Torsional Buckling, 705
Machine Stress Rated Lumber: Challenge to Design, 271
Optimum Design of Prestressed Concrete Members, 87
Post Lateral Buckling Behavior of Beams, 735
Rational Design of Light Gage Beams, 81
Reinforced Concrete Beam-Column Connection, 793
Stirrup Effectiveness in RC Beams with Axial Force, 783
Stress Distribution in Castellated Beams, 994
Stress Waves at Rigid Right Angle Joint, 745
Torsion, Bending and Shear in Prestressed Concrete, 574
Torsion, Shear, and Bending on Stirruped L-Beams, 70
Variational Approach to Beams on Elastic Foundations, 550
Vibration of Structures Having Changing Boundaries, 331
Vibration of Support Excited Tubes in Coaxial Flow, 916

Bearing Capacity
Analysis of Circular Footings on Layered Soils, 57
Analysis of Load-Bearing Fills over Soft Subsoils, 972
Bearing Capacity of Anisotropic Cohesive Soil, 678
Bearing Capacity of Concrete Blocks, 798
Bearing Capacity of Eccentrically Loaded Footings, 273
Bearing Capacity of Footings on Anisotropic Soils, 511
Lateral Load Capacity of Piles in Sand and Normally Consolidated Clay, 515
Scale and Boundary Effects in Foundation Analysis, 1038
Sustained and Cyclic Loading of Concrete Columns, 553

Bed Load
Experimental Investigation of Form of Bed-Roughness, 847
Height of Sand Dunes in Open Channel Flows, 967
Initiation of Ripples on Flat Sediment Beds, 683
Longitudinal Dispersion of Bed-Material Particles, 864
Motion of Single Particles in Alluvial Channels, 551
Parameters for Bed Slip Point in Two-Phase Flow, 804
Sediment-Pickup Function, 503

Beds
Experimental Investigation of Form of Bed-Roughness, 847
Sediment Transportation Mechanics: F. Hydraulics Relations for Alluvial Streams, Task Committee for Preparation of Sedimentation Manual, 856

Beds Under Water
Protection of Offshore Structures Against Underscour, 713

Bending
Bending of Clamped Orthotropic Sandwich Plates, 13
Deflection of Circular Plate with Built-in Edges, 731
Elastic Plastic Bending of Circular Plates, 93
Rational Design of Light Gage Beams, 81

Biaxial Stresses
Biaxially Loaded Beam-Column Analysis, 1015

Bids
Better Specifications for Underground Work, 417
Bidding Contingencies and Probabilities, 891

Bidding With Competitive Strategy Models, 939
Competitive Bidding on Foreign Work, 693
Final Committee Position on The AGC's Recommendation that Approved Securities be Posted in Lieu of Retained Percentages, by the Committee on Contract Adminstration of the Construction Division, 1001
Open-Shop Movement Slithers Into Construction Contracting, 666
State of the Society, 1042

Bimetals
Higher Mode Buckling of Bimetallic Beam, 725

Biochemical Oxygen Demand
Aerated Lagoons Treat Minnesota Town's Wastes, 1
Biokinetic Evaluation of BOD Concepts and Data, 994
Power Plant Cooling Water Discharge in Streams, 963
Problems Associated with Planning BOD Experiments, 742

Biochemistry
Aerobic and Anaerobic Landfill Stabilization Process, 872

Bioengineering
Artificial Intelligence Continuum Mechanics, 859
Prospectives in Bioengineering Research for Civil Engineers, 982

Biological Treatment
Batch Adsorption Kinetics in Sewage--Activated Carbon, 1015

Biology
Kinetic Analysis of Data from Biological Systems, 1010

Blasting
Dynamic Analysis of Multibay Multistory Frames, 826
Field Tests of Ice Jam Prevention Techniques, 707

Blocking
Effect Of Side Walls On Flow Past Bluff Bodies, 588

Boilers
St. Louis Power Plant to Burn City Refuse, 53

Bolted Joints
Connections in Thin Low-ductility Steels, 817
Eccentrically Loaded Bolted Connections, 530
Fatigue of Bolted High Strength Structural Steel, 407

Bolts
Eccentrically Loaded Bolted Connections, 530

Bonding
Analysis of Dowel Action, 638
Arch Action and Bond in Concrete Shear Failures, 34
Bonded Concrete Overlays, 98

Books
New Books On Structural Analysis, 740

Bores
Finite-Difference Simulation of Bore Propagation, 733

Boundary Conditions
Finite Element Method: A Galerkin Approach, 808

Boundary Layer
Flow Visualization in Turbulent Boundary Layers, 820
Linear-Momentum Flux to Overbank Sections, 484

Boundary Layer Flow
Turbulence Structure in Plane Couette Flow, 518

Boundary Processes
Variational Principles for Flow in Porous Media, 139

Boundary Value Problems
Deflection of Circular Plate with Built-in Edges, 731
Dynamic Response of Circular Footings, 789
Stress Distribution Around Shell Openings, 239

Box Beams
Progress Report on Steel Box Girder Bridges, Subcommittee on Box Girders of the ASCE-AASHO Task Committee on Flexural Members, 424
Shear Lag in Stiffened Box Girders, 51

Bracing
Multistory Prefabricated Columns, 102
Slurry Wall Construction for BART Civic Center Subway Station, 776

Breaking Load
Anchor Zone Stresses in Prestressed and Concrete Beams, 391

Breakwaters
Armor Stability of Overtopped Breakwater, 929
Damage Function of Rubble-Mound Breakwaters, 682
Irregular Wave Action on Rubble-Mound Breakwaters, 920
Modular Systems Make Shore Protection Economical, 622
Numerical Model for Wave Pressure Distributions, 134
Piling-Up Behind Low and Submerged Permeable Breakwaters, 59
Port Construction At Burns Waterway Harbor, 255
Shock Pressure on Coastal Structures, 763
Wave Attenuation by Fluid Filled Bags, 189
Wave Attenuation by Porous Walled Breakwater, 897

Bricks
Hypothesis for Shear Failure of Brickwork, 580
Strength of Load-Bearing Masonry Walls, 943

Brick Structures
Hypothesis for Shear Failure of Brickwork, 580

Bridge Approaches
New Highway Bridge Dimensions for Safety, 991
Three Support Systems Used to Build Bridge Substructure, 773

Bridge Construction
Three Support Systems Used to Build Bridge Substructure, 773

Bridge Decks
Bonded Concrete Overlays, 98

Bridge Failure
Inspect Bridges Now, Avoid Problems Later, 729

Bridge Foundations
Designing Computer Programs for Bridge Foundations, 808

Bridge Piers
Analytical Model for Prediction of Ice-Structure Interaction, 1018
Computer Determination of Flow Through Bridges, 76

Bridges (Box Girde
Concrete Box-Girder ges as Sandwich Plates, 248
Montreal Boasts Cabl tayed Bridge, 525

Bridges (Cable-Stayed)
Analysis of Cable-Stayed Girder Bridgev, 928

Bridges (Concrete)
Concrete Box-Girder Bridges as Sandwich Plates, 248
Epoxy Injections Repair Historic Prestress Concrete Bridge, 182
Longest Prestressed Girders for New York City Bridge, 320
Need For Diaphragms in Concrete Box Girders, 544

Bridges (Decking)
Horizontal Thermal Movement of Curved Bridge Decks, 170

Bridges (Girder)
Analysis of Curved Girder Bridges, 115
Fracture Analysis of King's Bridge, Melbourne, 775
Progress Report on Steel Box Girder Bridges, Subcommittee on Box Girders of the ASCE-AASHO Task Committee on Flexural Members, 424
Shear Lag in Stiffened Box Girders, 51

Bridges (Highway)
Inspect Bridges Now, Avoid Problems Later, 729

Bridges (Piers)
Concrete Column Design by AASHO Specifications, 591
Eddy Formation Behind Circular Cylinders, 983
Longest Prestressed Girders for New York City Bridge, 320
Montreal Boasts Cable-Stayed Bridge, 525
New Highway Bridge Dimensions for Safety, 991
Three Support Systems Used to Build Bridge Substructure, 773

Bridges (Railroad)
Eads Bridge Repaired by Jacking, 423

Bridges (Steel)
Progress Report on Steel Box Girder Bridges, Subcommittee on Box Girders of the ASCE-AASHO Task Committee on Flexural Members, 424

Bridges (Structures)
Analysis of Cable-Stayed Girder Bridgev, 928
Bridge Engineer Looks at Esthetics of Structures, 603
Concrete Box-Girder Bridges as Sandwich Plates, 248
Control Surveys for Major Bridges, 899
Design Requirements for Safer Highway Bridge Rails, 347
Epoxy Injections Repair Historic Prestress Concrete Bridge, 182
Horizontal Thermal Movement of Curved Bridge Decks, 170
Longest Prestressed Girders for New York City Bridge, 320
Montreal Boasts Cable-Stayed Bridge, 525
New Highway Bridge Dimensions for Safety, 991
Parallel Processing Approach to Bridge Planning, 288
Stress Distribution in Castellated Beams, 994

Bridges (Suspension)
Airfoil and Bridge Deck Flutter Derivatives, 963
Design and Construction of Newport Bridge, 893
Newport Bridge Superstructure, 961
Point Pleasant Bridge Collapse-Conclusions of the Federal Study, 451
Point Pleasant Bridge Collapse Mechanism Analyzed, 472

Bridge Towers
Montreal Boasts Cable-Stayed Bridge, 525

Bridging
Arch Action and Bond in Concrete Shear Failures, 34

Brightness
High-mount Interchange Lights, 340

Brittleness
Bearing Capacity of Concrete Blocks, 798

Bubbles
Movement of Small Gas Bubbles in Smoothly Decelerating Liquid, 1014

Buckling
Axial Load Design for Concrete Filled Steel Tubes, 179
Behavior of Continuous Crane Rails, 586
Buckling and Post-Buckling of Spherical Caps, 235
Buckling and Vibrations of Polygonal and Rhombic Plates, 681
Buckling of Axially Loaded Cylindrical Panels, 863
Buckling of Clamped Rectangular Plates, 770
Buckling of Columns with Random Initial Displacements, 600
Buckling of Fully and Partially Embedded Piles, 203
Buckling of Multilayer Plates by Finite Elements, 933
Buckling of Polar Orthotropic Annular Plates, 982
Buckling of Reinforced Concrete Shells, 987
Buckling of Simply Supported Folded Plates, 779
Buckling of Simply Supported Skew Plates, 1009
Buckling of Soil-Surrounded Tubes, 659
Buckling Strength of Columns Based on Random Parameters, 709
Column Instability Under Weight and Follower Loads, 695
Critical Shear Loading of Curved Panels of Corrugated Sheets, 499
Design of Laterally Unsupported Timber Beams, 536
Dynamic Buckling of Shallow Arches, 997
Elastic Lateral Buckling of Steel Beam, 454
Elastic Lateral Buckling of Stepped I-Beams, 1038
Experimental Study of Lateral Buckling of Arches, 874
Hollow Tubular Beam-Columns in Biaxial Bending, 438
Inelastic Buckling of Axisymmetric Shells, 904
Inelastic Flange Buckling of Curved Plate Girders, 599
Inelastic Flexural-Torsional Buckling, 705
Initial Buckling of Channels in Compression, 992
In-Plane Bending and Buckling of Arches, 623
Intersecting Titanium Spheres for Deep Submersibles, 1013
Lateral Buckling of Parabolic Arches with Tilting Loads, 652
Multistory Prefabricated Columns, 102
Numerical Method for Elastic Stability Problems, 956
Optimum Design of Trusses for Ultimate Loads, 500
Plastic Buckling Of Point-Loaded Spherical Shells, 118
Post Lateral Buckling Behavior of Beams, 735
Snap-Buckling of Shallow Prestressed Arches, 55
Stability and Load Capacity of Members with No Tensile Strength, 976
Stability Criteria for Shallow Arches, 1005
Stability of Shells by Parametric Differentiation, 658
Upper Bounds in Complementary Energy Method, 1022

Buffers
Containership Finger Pier has Unique Fender System, 298

Building Codes
Hurricane Exposes Structural Flaws, 135
Influence of Soil Conditions on Building Damage Potential During Earthquakes, 881

Buildings
Analysis of Asymmetrical Coupled Shear Walls, 633
Artic Research Laboratory, 359

Building Columns under Strong Earthquake Exposure, 802
Construction Self-Weight Stresses of Precast Shear Walls, 323
Earthquake Interaction by Fast Fourier Transform, 752
Earthquake-Resistant Reinforced-Concrete Buildings, 497
Framed Tube Structures for High-Rise Buildings, 1002
Influence of Soil Conditions on Building Damage Potential During Earthquakes, 881
Integrated System For RC Building Design, 485
Optimum Housing Allocation Model for Urban Areas, 886
Plastic Design of Multistory Steel Frames by Computer, 466
Reinforced Concrete Beam-Column Connection, 793
Response of Ground-Excited Elastoplastic Systems, 430
Seismic Design of Soil-Structure Systems, 1035
Steady-State Response of Yielding Shear Structure, 851
Stochastic Frame Response Using Modal Truncation, 21
Stress Distribution in Castellated Beams, 994
Superstructure for 1,350-ft.-High World Trade Center, 432
Treatment of Peak Gusts on Cladding, 741

Buildings (Apartment)
Precast Concrete Panels Cut Cost of Apartment Complex, 344
A Program For New Towns, 727
Structural Ground Concept and Wire Fabric Save Time and Money, 684

Buildings (Codes)
Cable-Suspended Roof Construction State-of-the-Art, Subcommittee on Cable-Suspended Roof Structures of the Task Committee on Special Structures of the Committee on Metals of the Structural Division, 973
Consistent Partial Safety Factors, 980
Staggered Columns in Flat Plates, 663

Buildings (Hotels)
Controlling Fires in Tall Buildings, 718

Buildings (Industrial)
Laminated Timber Used in High-Rise Mill Building, 765

Buildings (Office)
Cables Support Office Building, 627
Controlling Fires in Tall Buildings, 718
Ductile-Frame Tie Bars, 694
Superstructure for 1,350-ft.-High World Trade Center, 432

Buildings (Recreational)
Sydney Opera House, 835

Bulkheads
Port Construction At Burns Waterway Harbor, 255
Stability of Cellular Cofferdams Against Vertical Shear, 483

Buoys
Dynamics of Single Point Mooring in Deep Water, 163

Buses (Vehicles)
Optimizing Traffic Flow on Existing Street Networks, 364
Urban Mass Transportation: Review and Analysis, 701
What Have Transit Demonstrations Really Shown?, 338

Bus Lines
Impact of Rail Transit on Bus Operations, 868
Transit Marketing in Chicago, 952

Cables (Ropes)
Analysis of Cable-Stayed Girder Bridgev, 928
Analysis of Inelastic Suspension Structures, 965
Cables Support Office Building, 627
Cable-Suspended Roof Construction State-of-the-Art, Subcommittee on Cable-Suspended Roof Structures of the Task Committee on Special Structures of the Committee on Metals of the Structural Division, 973
Computation of Cutting Length of Guys, 958
Inelastic Analysis of Suspension Roof Structures, 445
Montreal Boasts Cable-Stayed Bridge, 525
Newport Bridge Superstructure, 961
Nonlinear Analysis of Cable and Truss Structures, 884
Study of Suspended Roof Model, 984

Caissons
Caisson Construction Problems and Correction in Chicago, 610

California
Residential-Recreation Development, 800
Status of Weather Modification in Watershed Management, 968
Water Quality Control in California, 120

Canada
Churchill Falls Power Facilities, 621

Canal Linings
Water Depths Required for Ship Navigation, 796

Canals
Biological Control of Aquatic Weeds, 996
Control of Ice Jams at Barrett Chute G.S., 235
The Cross-Florida Barge Canal: A Lesson in Ecology, 275
Effects of Mechanical Cleaning Operations on Flow In Large Conduits, 589
Interoceanic Canal Navigation Criteria, 73
Operation and Maintenance of Colorado Aqueduct, 392
Public Irrigation Systems In Puerto Rico, 307
Sector Gates in Bangkok Klong System, 965
Surge Problems in Canals with High-Lift Locks, 10
Weed Control in Arid Southwest, 964

Cantilever Beams
Elastic Lateral Buckling of Steel Beam, 454
Lateral Stability of Nonuniform Cantilevers, 700

Cantilevers
Column Instability Under Weight and Follower Loads, 695

Capillarity
Similitude Criteria for Flow from Unconfined Aquifers, 1034

Catchments
Fitting Methods for Conceptual Catchment Models, 949

Caves
Crude Storage: Tanks or Caverns?, 263

Cavitation
Cavitation Parameters for Outlet Valves, 559

Cellular Structures
